Approved For Release 2001/11/01 : CIA-RDP75-00662R000200170002-3

*Office Memorandum* • UNITED STATES GOVERNMENT

TO : Assistant Director, O/RR

DATE: 21 January 1953

FROM : Chief, D/S

SUBJECT: Mission and Organization of Communications Branch, D/S

25X1X4 1. The mission of the Communications Branch has not been defined in a broad enough manner to accomplish the full task of analyzing communications within the Soviet economy. The Branch will shortly be in position to cover the field of telecommunications, but it will not be staffed to cover [REDACTED] postal and courier systems or the newspaper and book publishing fields, all of which are part of the system by which information and decisions are disseminated to important segments of the economy. Coverage of these fields should include the use of the sociological techniques used in the study of communications in a society at large.

2. It is requested that you authorize two additional positions in the Communications Branch and the recruitment of two competent analysts, preferably one senior and one junior, to cover the fields not now covered, the grades depending on the qualifications of the recruits.

3. There are at present only five vacant analyst positions in the T/O of this Division and recruitment is under way to fill all these positions.
